The market for Congon has been quiet, the Teamen being firm indices an expectation of a brisker demand after the arrival of the Mail, which came in out the 15th, but there does not appear to the any greater demand since then, and the lower sorts are decidedly wraker, As usual at this period of the session, the grades above 30 Tuels, though nominally the same are really dearer, as the suma price dre vitid for inferior quality.
